Testimonial

World Web Technology exceeded my expectations. Their team's deep expertise and client-focused approach made developing my website and PLA tool a breeze. They delivered exactly what they promised with excellent communication. They're definitely an 'A' team

Mark
★★★★★

Sanjay and his team at World Web Technology rescued our e-commerce project with patience and expertise. They fixed everything seamlessly and delivered outstanding results. I highly recommend them to anyone needing reliable web design and development services

Todd
★★★★★

World Web Technology has been a pleasure to work with. Their team is approachable and always available on Skype, ensuring clear and efficient communication. They respond quickly and deliver excellent work. I'm delighted with their services and highly recommend them for web development.

Nolan
★★★★★

I've worked with World Web Technology on WordPress web applications at Scalarly for months. They're reliable, timely, and accurate with their quotations. Whenever issues arise, they're quick to provide solutions. I highly recommend them for web development needs

# Our Project
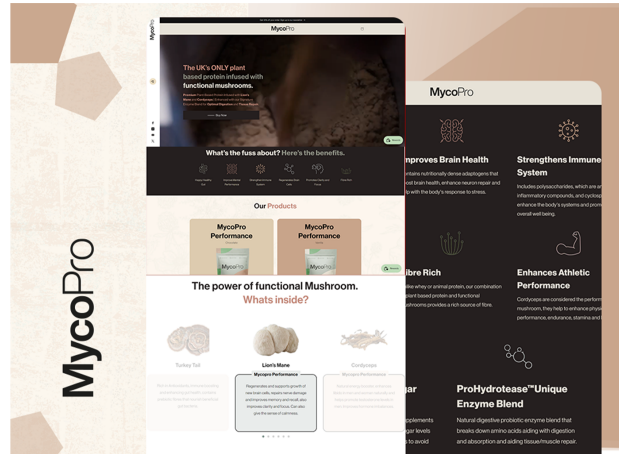

Flexible Business Engagement Models

Fixed Price Model

- Well-defined project scope and timeline
- Fixed budget ensuring cost predictability
- Risk mitigation for clients
- Ideal for projects with precise requirements
- Simplified management and oversight

Time & Material (T&M) Model

- Flexibility to accommodate changing project needs
- Pay based on actual time and resources utilized
- Suitable for projects with evolving or unclear requirements
- Continuous client involvement
- Scalable resource allocation

Dedicated Development Team Model

- Exclusive, full-time team dedicated to your project
- Seamless integration with your existing team
- Direct control over the development process and resources
- Access to a wide range of expertise
- Long-term engagement for ongoing projects

Flexible Business Engagement Models

Milestone-Based Model

- Payments tied to specific project milestones
- Clear tracking of project progress and deliverables
- Risk mitigation with a phased payment structure
- Ideal for complex projects with distinct phases
- Enhanced project management

Extended-Team (ETM) Model

- Augment your team with our skilled professionals
- Flexibility to scale up or down as per project demands
- Enhanced collaboration with extended team members
- Reduced hiring and training costs
- Accelerated project timelines

Hybrid Engagement Model

- Combination of onshore and offshore resources
- Customized approach to meet specific project requirements
- Cost-efficiency with high-quality deliverables
- 24/7 development cycle
- Enhanced project management and oversight
